NEXT Black Sea Basin

BSB00008 Regular project

LEARN4SEA

**Innovative joint learning for environmental-friendly
behaviour of communities in the Black Sea Basin**

Overview

Environmental issues are complex and interconnected with daily life activities. Addressing the gap between pollution levels and citizens' behavior is crucial. Project partners will collaborate to develop solutions and implement actions for enhanced nature protection and reduced pollution.

Road Ahead

- Network of Environmental Information Centres for actions to protect the environment and reduce pollution
- Campaigns to raise awareness at different levels of education for subsequent actions on environmental protection
- Promotional and innovative educational materials for raised awareness of the target groups
- Methodology to support specialists involved in air and water quality assessment for changing the behaviour of the general public
- Mechanism for cooperation between authorities to generate initiatives and regulations for better protected environment and reduced pollution

Partnership

Lead partner: Romanian Maritime Training Centre

Partner 2: Black Sea - Danube Association of Research and Development

Partner 3: LEPL – National Environmental Agency

Partner 4: Piri Reis University

Partner 5: Shabla Municipality
