SEAQUEST

Unleashing Youth Power in Transnational Innovation for a Thriving Blue Economy

Overview

The project focuses on developing and enhancing research and innovation capacities and the uptake of advanced technologies. It aims to address the common challenge of fostering sustainable economic growth and job creation in the blue economy sector across multiple regions.

Road Ahead

- Transnational network for blue economy
- Youth needs assessment and regional gap analysis to understand the challenges and opportunities for youth in blue economy
- Joint platform for the sustainable transnational network to access a wide range of resources on blue economy sector
- Capacity building programs and training initiatives on blue economy to promote sustainable practices within the sector
- Joint strategy to ensure the long-term viability and growth of the transnational network structures and platforms
