

Joint Operational Programme Black Sea Basin 2014-2020

Common borders. Common solutions.

Spotlight on the Joint Operational Programme Black Sea Basin

ENI CBC Black Sea Basin Programme is fast approaching its end, and the focus is now on the closure of the Programme.

We appreciate the collaborative effort and thank everyone who was engaged!

Joint Monitoring Committee meeting

4 June 2024

The last meeting of JMC was held in Constanta, Romania and recalled the Programme timeline and its main achievements and results.

8 years of implementation totaled 548 submitted applications, 2,339 applicants, 57 financed projects, with a total value of 48.8 million EURO, 281 beneficiaries and 34 small-scale investments in the cultural and creative infrastructure, infrastructure related to the tourism sector and ports, or in the infrastructure dedicated to the protection and monitoring of the environment. The European Commission representative emphasized the need to continue, in the coming period, communication and ensuring the visibility of project results and success stories.

The Black Sea Basin Projects Portfolio is published on the programme website.

Closing event

5 June 2024

The event brought together the management and control structures of the Programme, from all 8 participating states, representatives of the European Commission, Audit Authority, TESIM project, beneficiaries and stakeholders, the main purpose being to discuss, in an extended format, Programme achievements and challenges.

The authorities responsible for managing the Programme highlighted its significant results and talked about the challenges encountered, the main ones being the COVID-19 pandemic and Russia's aggression against Ukraine, as well as about the measures adopted to complete the implementation of projects.

Key moments from the Closing event are included in a video material available on the programme website.

REDACt project

Showcased on EURONEWS Smart Regions

The global objective was to improve cross-border joint environmental data and information monitoring, availability and cooperation regarding earthquake disaster prevention, management and seismic risk mitigation, by developing a framework for harmonization and cooperation, as well as a new Service, based on innovative ICT-based solutions (a Rapid Earthquake Disaster Assessment System; a Smartphone app; an Educational Hub) going beyond the existing practice in the field of Earthquake Emergency Preparedness and Response.

CREA-CENTERS project

Promoting European Union territorial cooperation across external borders

The project aimed to establish and develop structures and networks for designers, entrepreneurs, academicians and artists of different disciplines operating in the field of cultural and creative industries (CCIs) in the Black Sea Basin, that provide free work and creation environment, facilitate the transfer of knowledge and technology, develop cooperation with the investors and customers and offer products and services to global networks.

It was selected by the European Commission to promote European Union territorial cooperation across external borders. The video material will be released soon.

TESIM Virtual Exhibition

Beause Neighbours Matter

The TESIM project developed the ENI CBC virtual exhibition, which was initiated at the beginning of 2021, on its website and revised it yearly.

This year, 5 new Black Sea Basin projects were included, making a total of 31 projects exhibited.

While navigating through this virtual exhibition, you will be able to explore and discover the many actions bringing a positive change to the populations of the concerned regions.

To visit the virtual exhibition click [HERE](#).
